

ISAN - EFAS CONFERENCE , BOLOGNA - ITALY 2-5 SEPTEMBER 2026 - PROGRAM

	Wednesday, 02/09/2026				Thursday, 03/09/2026				Friday, 04/09/2026				Saturday, 05/09/2027							
	room 1	room 2	room 3	room 4	room 1	room 2	room 3	room 4	room 1	room 2	room 3	room 4	room 1	room 2	room 3	room 4				
08:30 - 09:00					Symposium Cardiovascular Autonomic Disorders in Clinical Practice	Symposium The Falling Dialogue: Molecular and Cellular Drivers of Cardiac Autonomic Dysfunction	Symposium Neuroimmune interaction: how much more do we have to discover?	Symposium Autonomic Dysfunction in Neurodegenerative Disorders: From Mechanisms to Therapies.	Symposium Dysfunction of the autonomic nervous system in cardiovascular disease	Symposium Interdisciplinary studies of nervous systems associated with the gastrointestinal tract and beyond	Symposium Neuropeptides as Core Integrators of Cardiac Autonomic Function.	Symposium Multiple system atrophy: from bench to bedside.								
09:00 - 10:00													Symposium Inflamed Circuits: Brain Immune Cells Shaping Cardiovascular Outcomes	Symposium Vagus nerve stimulation in epilepsy.	Symposium Autonomic regulation in cardiovascular disorders: mechanisms and interventions	Symposium Circadian Biology and Autonomic Regulation.				
10:00 - 10:30	EFAS SCHOOL Theoretical & Practical session				Poster session 1 (and refreshment)				Poster session 3 (and refreshment)				Keynote lecture Alexander A. Steiner; University of Sao Paulo. Immunoregulation by sympathetic nerves: can neutrophils be selectively targeted?							
10:30 - 11:00																				
11:00 - 11:30																				
11:30 - 12:00																				
12:00 - 12:30					Lunch				Lunch				Closing ceremony							
12:30 - 13:00																				
13:00 - 13:30	Registration																			
13:30 - 14:00																				
14:00 - 14:30	Opening ceremony				Hot topic Session <i>Title to be decided (speakers selected from abstracts)</i>				Symposium Rethinking the definition of sympathetic and parasympathetic nervous systems				Symposium Transcriptomic Signatures of Autonomic Ganglia in Health and Disease		Symposium Altered regulation of sympathetic nerve activity in heart failure with preserved ejection fraction		Symposium Interplay of interoception and the autonomic nervous system in health and disease			
14:30 - 15:00	Keynote lecture ISAN Ana Domingos; University of Oxford. Sympathetic neuroimmunity in obesity				Poster session 2 (and refreshment)				Poster session 4 (and refreshment)											
15:00 - 15:30																				
15:30 - 16:00																				
16:00 - 16:30	Symposium Chemoreflex and Autonomic Dysfunction: From Mechanisms to Therapeutic Targets Across Diseases.		Symposium Central and peripheral investigation of the autonomic regulation of cardiovascular function in health, disease and injury.		Symposium Beyond the Average Human: New insights from Interindividual Variability in Autonomic Control.		Symposium Early detection and monitoring of disease progression in protein misfolding diseases and lysosomal storage disorder.		Symposium Electroceuticals for controlling cardiorespiratory diseases.		Symposium Precisely what is torpor? Can we synthesise it?		Symposium Cardiac innervation patterns governing cardiovascular function in health and disease		Symposium Autonomic Dysfunction in Multiple Sclerosis: From Mechanisms to Clinical Implications.		ISAN AGM			
16:30 - 17:00																				
17:00 - 17:30																				
17:30 - 18:00																				
18:00 - 20:00	Welcome cocktail																			
20:00 - 23:00									Conference dinner
